RESEARCH METHODOLOGY

RESEARCH METHODOLOGY

Quantitative research methodology was utilized for the study and the interviews were administered face to face using mobile devices

- Nation-wide survey
- Coverage in all 47 counties in Kenya

- Household Survey
- 1991 Interviews
- 944 urban interviews; 1047 rural interviews

Respondents Profile:

- Kenyan Citizens
- Men and Women
- Aged 18 years old and above
- Including people from all social economic classes and stages of life

The study was conducted in the month of May/June 2016

RESPONDENTS' DEMOGRAPHICS

The gender distribution of the total sample (49% males and 51% females), is representative of the Kenyan population as per United Nations Department of Economic and Social Affairs - Population Division.

A majority of those surveyed were 35 years and below (76%). Additionally 72% of Kenyans are in some form of employment (self-employed, full-time, part-time or seasonal) and only 16% identified themselves as unemployed.

WHAT
DETERMINES
HOW MUCH
KENYANS GIVE?

DECISION MAKING : HOW MUCH TO GIVE

Decision on how much to give are mainly based on the amount they have at the time of need as well as the type of need the beneficiaries have.

22% **plan** on what to give; with 11% having a specific amount they give and 11% giving a proportion of their income.

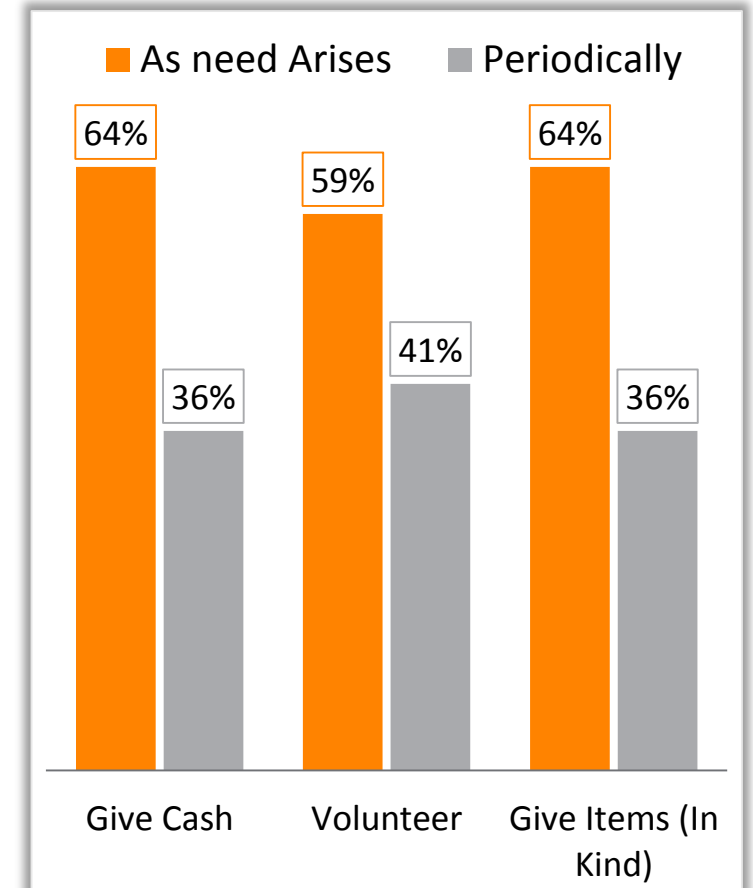

FREQUENCY OF GIVING IN KENYA

“Kenyans give impulsively – as need arises”

Frequency of Giving to Individuals

Frequency of Giving to Organization Causes

Most Kenyans find
out about those in
need via word of
mouth

SOURCE OF INFORMATION ABOUT CAUSES/ INITIATIVES

The main source of information about individuals in need or organizations' causes is word of mouth.

Source of information about individuals in need

Source of information about organization causes

● Word of mouth as a source of information

WHAT HINDERS THE 7% OF KENYANS FROM GIVING?

8% do not give to Individuals
in need and 36% do not give
to Organizational causes

BARRIERS TO GIVING

Finances are the main barrier for those who did *not* give in the last year (7% of Kenyans). Trust is also a key issue as 21% stated they did not trust the needs were genuine and 12% believe their donations will be used for other purposes other than helping those in need.

Some Kenyans believe that what donors give is adequate.

KENYANS ATTITUDE & PERCEPTION TOWARDS PHILANTHROPY

WHY DO KENYANS GIVE?

The main motivator for those who give, is to improve the condition or state of the beneficiary.

Religion drives 10% of those who contribute; as 6% believe that it's part of their religion and 4% believe that giving makes them better Christians or Muslims etc.

HOW WOULD KENYANS PREFER TO GIVE?

Kenyans would prefer to give more consistently; 64% would prefer to give consistent amounts of cash or items to a specific cause.

WHAT KENYANS DISLIKE WHEN GIVING TO ORGANIZATIONS

Force or coercion is the main de-motivator for Kenyan philanthropists, especially when they are forced to give in cash, rather than in kind.

They would also like accountability on how donations are being utilized.

MITIGATION

Allow them to give freely i.e. what they want

Show respect to volunteers

Have accountability systems to grow trust

PERCEPTION OF PHILANTHROPY AMONG KENYANS

What is the best way to give to those in need?

71% of Kenyans believe it is better to empower people towards economic independence rather than giving cash

69% of Kenyans believe that charity organizations should focus on making those in need more self-sufficient

67% Kenyans believe that volunteering is more efficient than giving cash

61% of Kenyans only give to charity when they hear from or see those in need

WHAT DO KENYANS THINK OF COMPANIES WITH CSR PROGRAMS?

63% of Kenyans believe that companies or organizations that involve their employees in corporate social responsibilities also care about their employees

MEDIA & TECHNOLOGY

MEDIA USED BY KENYANS

Majority of Kenyans listen to radio (82%) and watch television (65%).

Those in rural areas are more likely to listen to radio (85%) compared to their urban counterparts (78%). Urban dwellers are more likely (72%) than their rural counterparts (59%) to watch television.

Furthermore, 37% of Kenyans browse the internet.

		BASE	LISTENING TO THE RADIO	WATCHING TELEVISION	BROWSING THE INTERNET	READING NEWSPAPERS	READING MAGAZINES
	Total	1991	82%	65%	37%	32%	12%
GENDER	Male	969	84%	69%	45%	41%	12%
	Female	1022	80%	61%	30%	24%	11%
LOCALITY	Urban	944	78%	72%	44%	37%	13%
	Rural	1047	85%	59%	30%	27%	10%
PHILANTHROPY	Philanthropist	1852	82%	67%	38%	33%	12%
	Non-Philanthropist	139	77%	45%	27%	18%	8%

According to the Communication Authority of Kenya, in Q3’ 2015, internet penetration in Kenya is at 88%. The International Telecommunication Union (an specialized unit if the United Nation for ICT) indicates that internet usage in Kenya 39% in 2014 .

ACCESS TO INTERNET

Among those who browse the internet, 85% own a smart phone while less than 10% own a feature or basic phone. 87% of those who access the internet do so using their personal phone.

PHONE TYPE OWNERSHIP

ACCESS OF INTERNET

SOCIAL MEDIA USAGE

Facebook and WhatsApp have the highest number of users. These sites are also more frequently used by the 37% who browse the internet.

LEVEL OF SOCIAL MEDIA ACCOUNT USAGE

PROPORTION USING THE APPS DAILY

Facebook – 71%

WhatsApp – 86%

Twitter – 64%

Instagram – 59%

YouTube – 46%

Google Plus – 56%

The decision to utilize social media should be supported with frequent content availability.

MEDIA USAGE BY CAUSES

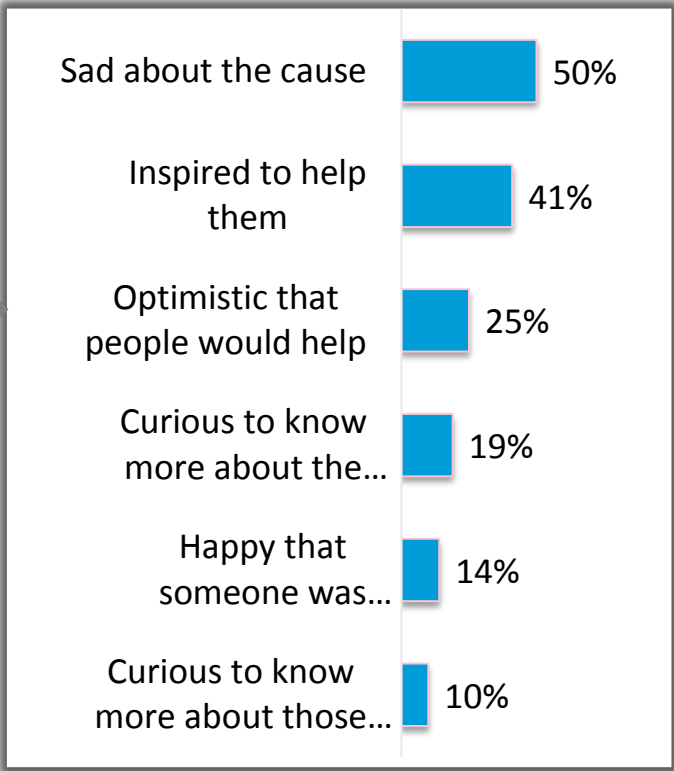

Most people have seen or heard about a cause on television and radio. These two media channels are also their preferred media to receive information about charitable causes.

REACTION TO CAUSES SEEN ON MEDIA

52% of Kenyans have seen or heard about a cause on media. The effect was that: Half of them felt sad, 41% felt inspired to help; 16% proceeded to send cash after seeing the cause.

EFFECT OF SEEING/ HEARING ABOUT THE CAUSE

REACTION AFTER SEEING/ HEARING ABOUT

	%
I did not do anything	36%
I helped by sending cash	16%
I went online to find out more about the cause	11%
I shared the messages with others on my social media	7%
I contacted those in charge to find more about it	6%
I went and volunteered	6%
I informed others about it in person/ sms or by calling	6%
I rallied my friends to contribute towards that organization	3%
I followed them on social media	2%
I attended an event for that organization or initiative	2%
I signed up for a newsletter from the organization	1%

There is need to ensure the correct call to action to inspire philanthropy.

USING TECHNOLOGY TO GIVE

Kenyans are most comfortable making donations via Mobile Money (54%) or giving actual cash (36%). Most of them are unlikely (48%) to make donations via an online platform.

Preferred means of making financial donation

Likelihood of making donation via e-platform

KENYANS' PERCEPTION OF TECHNOLOGY

How can we best utilize technology to better foster the spirit of philanthropy among Kenyans?

76% of Kenyans believe that technology is important for non-profits.

66% are keenly interested in keeping up with causes online.

67% believe that technology is a good way to gather information. However few trust the reliability of the information provided.

66% believe that it's very important for non-profits to use social media.

Kenyans wish to mainly hear from beneficiaries of the organizations (**64%**). They would also like to hear from the volunteers (**43%**) and managers (**41%**).

How can non-profit organizations use **technology** to engage local philanthropists while addressing their **trust** concerns?

OPPORTUNITIES

OPPORTUNITIES FOR CSOs

TRUST

There is need to address the trust concerns raised by Kenyans. Accountability is key for all stakeholders

COMMUNICATION

Word of mouth is the most popular communication channel. There is need to communicate for purposes of awareness creation while having the right call to action.

ENGAGEMENT

Kenyans give, however there is need to engage them in a more strategic manner. Identify potential supporters strategically, e.g. which groups to engage.

TECHNOLOGY

Technology has been critical in other industries. There is need to drive technology use tactfully for optimal gains.
